## #READYTOGO

Discover AIVIA GO, the AIVIA connected surveillance solution to ensure the operability of the AED 24/7, available in 4G LTE version.

### 24/7 monitoring

The AIVIA GO technology continuously monitors the AED's health indicator to verify its status and presence. It informs in real time of a use or a detected problem.

### Emergency call 4G LTE

The AIVIA GO module integrates telephony to call emergency services or any configured number (112, 911, etc.)

### Geotracking

GPS tracking is automatically activated when the AED is removed or moved, making it easier for emergency services to locate it.

### Remote monitoring

AIVIA GO information is fed back to the AIVIANet web platform in order to manage AEDs, configure notifications and perform maintenance actions remotely and in real time.
